LUMBERJACK WOOD SLAT BLINDS

TRANSFORM YOUR ROOM WITH TOP QUALITY BASSWOOD BLINDS, CUSTOM CRAFTED TO YOUR EXACT WINDOW MEASUREMENTS.

Our customised service can manage every stage of the process from design advice to a complete measurement and fitting service.

Stylish Lumberjack blinds look just as good when viewed from the street, giving houses a real 'wow factor' inside and out.

Choose from eight attractive colours including Silky White and Oyster Bisque which match our very popular shutter ranges.

All of our blinds come in 50mm slat width, giving you a much neater stacking height when raised.

Each blind is beautifully crafted in non-endangered basswood. Firstly the basswood is sanded to a smooth finish and then painted or hand rubbed with a stain for an even more natural finish with a special UV resistant multi-coat application. This process restricts yellowing and fading and really is the difference that sets our quality Lumberjack blinds apart!

LONG LASTING AT AN AFFORDABLE PRICE!

RICH WENGI

OLD WALNUT

PECAN NUT

GOLDEN HONEY

NATURAL VIRGIN

CHERRY BLUSH

SILKY WHITE

OYSTER BISQUE

FITTING OPTIONS

DECIDE WHETHER YOU WANT THE BLIND TO HANG INSIDE OR OUTSIDE THE WINDOW RECESS.

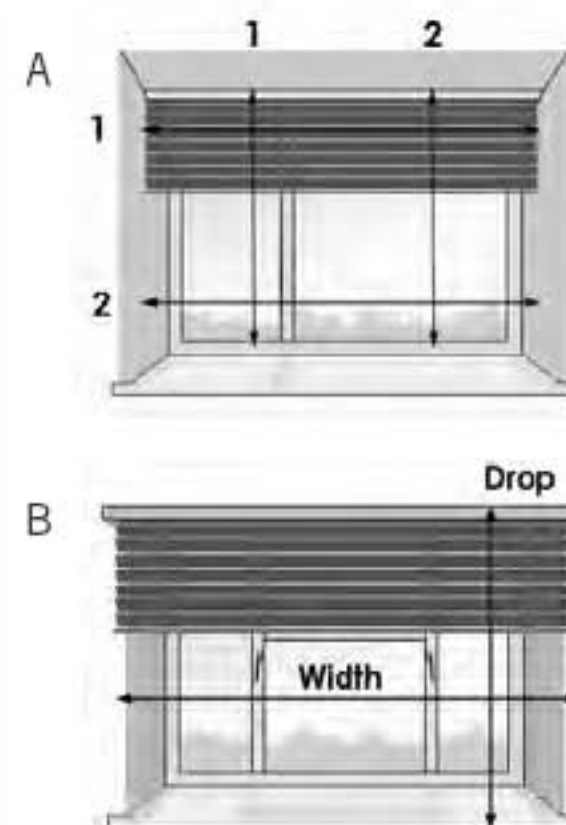

If inside, measure the window frame from wall to wall, we will deduct 12mm from the width so that the blind will fit into the recess when the brackets are affixed. (See diagram A).

For blinds to hang outside the recess, simply supply us with the exact width & drop measurements for where you would like the blind to cover. (See diagram B).

The dimensions supplied by you will be the overall blind size and will be made exactly to the size specified with no allowance made by us.

Tip: Always measure the width and drop in at least three places, as windows are often not as square as they look!

For outside mount or sash windows the mitred valance returns are free giving you the really expensive blind look. All of this ensures a truly custom product that you will be proud to show.
